

April 4, 1978

LB 922

SENATOR KELLY: Is that Senator Cullan has submitted to this body two amendments, which one are we discussing, what are we, what is the procedure involved?

PRESIDENT: Senator Cullan, you have two amendments?

SENATOR CULLAN: Mr. President, the first amendment to the bill is submitted. Following that, I added an amendment to that amendment so we would be discussing the amendments on...at this point, I assume we would be discussing the amendments on deferred maintenance and capital construction, which is (interruption).

PRESIDENT: You have one amendment, then?

SENATOR CULLAN: One amendment, yes.

PRESIDENT: But you have an amendment to that?

SENATOR CULLAN: Yes, sir, to clarify it.

SENATOR KELLY: I am still not satisfied with where we are, Mr. President.

PRESIDENT: Would you read your...Your principal amendment has to do with a moratorium on construction?

SENATOR CULLAN: And the referendum, yes, sir.

PRESIDENT: And the amendment to that has to do with what?

SENATOR CULLAN: I would like to propose an amendment to that that reads as follows: Section 1, 2, 3 and 7 of this act shall not apply to miscellaneous renovation and deferred maintenance projects of \$50,000 or less, handicapped access and life safety improvements made to existing structures or grounds in the technical community college area.

PRESIDENT: All right. So we are dealing only with the amendment to the amendment, Senator Kelly.

SENATOR KELLY: Now, we are on Select File?

PRESIDENT: Yes, sir.

SENATOR KELLY: And for this amendment to be adopted, what is it going to be adopted to?

PRESIDENT: The amendment is going to be adopted to the amendment. He is proposing an amendment to his own amendment.

SENATOR KELLY: But that amendment has not been adopted, has it?

PRESIDENT: No.

SENATOR KELLY: Then I don't quite follow that.

PRESIDENT: Well, we often propose amendments to amendments when they are pending.

SENATOR KELLY: Okay, then we will be discussing the handicapped addition to Senator Cullan's amendment and, Mr. Pre-
